| <b>Bet.</b> | <b>Ansöknings nr.</b> | <b>Publ.-nr</b> | <b>Titel</b>   |
|-------------|-----------------------|-----------------|--|
| 3           | P1 SE0900033-2        | SE533658        | <b>En allmänt användbar kapacitiv sensor</b><br>A Multi-Purpose Capacitive sensor - providing proximity sensing fields for all kinds of applications.  |
| 6           | P2 SE1050582-4        | SE538227        | <b>Elektrisk strömställare innehållande en kapacitiv sensorkrets - Kapacitivt sensorsystem</b><br>Capacitive Sensor System for a Vehicle - providing a security shield for the whole vehicle.  |
| 5           | P3 SE1050581-6        | SE538226        | <b>Kapacitivt sensorsystem</b><br>Capacitive Sensor-System for a Vehicle - providing a security shield for the whole vehicle.  |
| 4           | P4 SE1000755-7        | SE535106        | <b>En allmänt användbar kapacitiv sensor</b><br>Capacitive Sensor System for a Vehicle - providing safety shields for selected sectors of the vehicle.   |
| ?           | P5 EPO13827116,8      |                 | <b>A multi-purpose monitoring system</b>   |
| 7           | P6 SE1200481-8        | SE536802        | <b>Ett övervakningssystem med multipla tillämpningar för naturkatastroflarm</b><br>Multi-Purpose Monitoring System Suitable for Natural Disaster Alarms - providing reliable guidance for survival worldwide.<br><a href="https://worldwide.espacenet.com/publicationDetails/">https://worldwide.espacenet.com/publicationDetails/</a> |
| 2           | P7 SE0701290-9        | SE532374        | <b>Televisionssystem innehållande överföring av meddelanden och övervakning</b><br>Alert Messaging in a Television System - providing visual alerts at a chosen subfield   |
| 1           | P8 SE0101504-9        | SE518662        | <b>Elektrisk strömställare innehållande en kapacitiv sensorkrets</b><br>Capacitive Sensor System - providing a moving (door) object with a capacitive sensor<br><a href="https://worldwide.espacenet.com/publicationDetails/">https://worldwide.espacenet.com/publicationDetails/</a>  |
| 8           | P9 EP05778013.2       | EP1794887       | <b>Kapacitivt sensorsystem</b><br>Electric Switch - providing a load line with a capacitive sensor so as to make it function as an actuating line.   |
